

For Immediate Release

4 June 2009

Your planet needs you – UNite to combat climate change and win a Deva Satinjet™ showerhead in June!

Deva and Waterwise are joining forces to support the UN World Environment Day on 5 June themed 'Your planet needs you – UNite to combat climate change' and inviting people to enter a competition in which they could win water saving Satinjet™ Awatea showerheads.

To take part simply go to www.waterwise.org.uk sometime in June, click on the competition and suggest a water saving policy you think the UK should adopt. All entries will be placed into a prize draw and the ten winners chosen at random by Waterwise.

The lucky winners will each receive a water saving Satinjet™ Awatea handset worth £58.71, which uses just nine litres of water per minute compared to the 20 litres of a conventional shower, and saves up to 40 per cent on water and energy with every shower taken, resulting in long-term benefits for your purse and the environment.

Just because you'll be saving water and energy doesn't mean your shower will be less enjoyable. In fact, it could be even better than before thanks to Satinjet's™ impressive Twin-Jet™ Technology, which works by angling jets of water to collide and disperse into 3,000 tiny drops of water per second that drench the skin. What's more the Satinjet™ Awatea handset can be fitted to most existing showers without turning off the water or calling a plumber and it works with all water pressures. Quick and easy!

Thanks to the gentle yet powerful spray of the multi award winning Satinjet™ showerheads, they are safe for the whole family to use, even those with the most delicate of skin and with a lifetime parts warranty you're guaranteed to enjoy your shower for many years to come – all just a click away!

To enter the competition and suggest a water saving policy you think the UK should adopt to go www.waterwise.org.uk

To find out more about Deva's vast range of more than 2,000 products call 0870 848 8400 or visit www.devatap.com.
